CIA HISTORICAL REVIEW PROGRAM
RELEASE AS SANITIZED

2003
MEMORANDUM

6 January 1954

To: Jerome C. DUNBAR

From: LUGTON

Subject: Friendly Strength in Guatemala

1. The following chart was submitted to LUGTON by SECANT on 5 January 1954. According to source these figures represent the total number of men available in Guatemala that can be called upon for use as an organized militia or underground on or before D-Day. Source claims that he personally has identified at least one-third of these individuals and that the other two-thirds are personally known to the group chiefs mentioned in the report.
2. These individuals do not represent organized forces of any sort but are merely indications of the total number of followers available throughout Guatemala.
3. Although he claims that lists of these individuals are presently available, source has been instructed to assign several individuals to make trips to the interior to determine that these totals are correct and up to date.
